# Fishing Lucky Star Ranch

Lucky Star Ranch has a 100 acre lake managed for Large Mouth Bass, Black Crappie and Northern Pike. No fishing license is required. The rich waters boast fishing that is second to none. The Large Mouth Bass are managed catch and release with a slot system. The keep slot is 12" to 18" with the catch and release of the smaller and larger fish ensures the sustainability of the fishery. Of course if you catch that fish of a lifetime and are going to get it mounted you may keep one above the slot limit. Large Mouth Bass in the 6 to 8 pound range are not uncommon. The Black Crappie is known for great eating and can be caught in great numbers. Keep what you like and we will put them on ice or fillet them for you. Northern Pike are the top predator in the lake and are removed when caught. The waters of the lake are spring fed, full of life and free of chemicals.

Lucky Star Ranch has had no pesticides and herbicides on food plots only for over 30 years.

To keep the quality of the experience beyond your expectations the Fishing is limited to 2 fishing parties on the property. Only electric motors are allowed. Of course a canoe or row boat is always welcome. If the season is open we can put together a combo hunt for turkeys and waterfowl (license required). Accommodations are first class with private bedrooms and bathrooms.
